

2019 Annual Conference

The Grand Hyatt San Antonio
November 7-9, 2019

Toyota Motor Manufacturing Texas

Wednesday, November 6, 2019

12:00 - 1:15 PM

&

1:30-2:45 PM

1 Lone Star Pass
San Antonio, TX 78264

Take part in our free educational tour being offered on Wednesday! We will be visiting the Toyota Motor Manufacturing Texas Plant (TMMTX). Explore the tradition and experience the innovation behind the best trucks in the world. Take a plant tour for the ultimate TMMTX experience! You will hear and see what goes into the manufacturing of the Toyota Tundra and Tacoma as they roll off the line each day. The friendly tour guides will take you through 2.2 million square feet of our facility. First you will be taken by the Body Weld Shop, where a team of computer-controlled robots use state-of-the-art technology to weld stamp steel pieces together. Next, you will move into the Plastics Shop. This is where critical components, including the vehicle bumpers and instrument panels, are made. Following, you will see overhead conveyors transport the trucks from Paint to Assembly, where the trucks begin to take shape. Throughout the tour, your guide will point out the foundations of the world-renowned Toyota Productions System, as well as give you insight to the line side processes of the TMMTX team members.

****There are only 40 spots available on each of the two tours.**

More tour information to come!
