

Todd Williams
Group Manager, Body Weld and Stamping
Toyota Motor Manufacturing, Texas, Inc.

Todd Williams is the Group Manager of the Body Weld and Stamping departments at Toyota Motor Manufacturing, Texas, Inc. (TMMTX). Located in San Antonio, the plant builds both the Toyota Tundra and Toyota Tacoma.

Todd began his career with Toyota in February of 1999. He joined the company as a production team member in the Assembly department at Toyota Motor Manufacturing, Indiana, Inc.(TMMI). He worked his way up to a team leader in Assembly Production before moving over to Assembly Pilot. From there, he was promoted to Assembly Pilot group leader and then rotated back to Assembly Production.

In 2005, Todd transferred to TMMTX to work on the Tundra start up as an Assembly Production group leader. He was promoted to Assembly Production assistant manager in 2006, with responsibility over Trim, Frame and Final. By 2009, Todd was again promoted to Assembly Manager. Now, his responsibilities grew to include all of Assembly, Pilot and Maintenance. With that experience under his belt, he was assigned in 2014 to support the Tacoma new model launch as the Tacoma Plant Pilot Manager.

After the new model launch, Todd rotated to the Human Resources division in 2015. As the Manager of Human Resources Development, he oversaw talent management and staffing. By 2018, Todd was promoted to Group Manager, taking on the Body Weld and Stamping departments. As Group Manager, he is responsible for Production, Engineering and Quality, and Maintenance in both Body Weld and Stamping.

Todd was born and raised in Evansville, Indiana and attended the University of Southern Indiana. Todd and his wife Sherie have four children and, together, the family enjoys participating in sports and outdoor activities.
